

GREENOVA

STEP INTO A CLEANER FUTURE

LIMITED EDITION!

1000W Motor – Delivers strong power, quick acceleration, and reliable uphill performance.

60/72V Controller – Compatible with both 60V & 72V systems for better top speed, smooth throttle response, and improved efficiency.

10" Rear Split Motor – Compact high-torque hub motor design ensures strong performance with low maintenance.

12" front Alloy Wheel + 10" front Wheel – Durable alloy rim with a stable and agile wheel setup for better control in city riding.

Perfect for DI Model – A powerful motor, flexible voltage controller, and compact wheel setup make it ideal for daily commuting and delivery applications.
